Contents

Vol 69 No 1 February 1988

1 *S. Ohtaki*: Quantitative interactions in weight of lymphoid organs and steroid hormonal organs in hamsters under several experimental conditions

17 *P.B. Robinson, W. Harvey and M.S. Belal*: Inhibition of cartilage growth by the anticonvulsant drugs diphenylhydantoin and sodium valoproate

23 *M.R. Jacyna, P.E. Ross, C. Gallacher, A. Hill, D. Hopwood and I.A.D. Bouchier*: Absorption of 'non-absorbable' markers and an improved method for determining cholesterol absorption rates

35 *P.H. Whiting, D.A. Power, J. Petersen, A. Innes, J.G. Simpson and G.R.D. Catto*: The effect of dietary protein restriction on high dose gentamicin nephrotoxicity in rats

43 *R.Y. Ball, K.L.H. Carpenter and M.J. Mitchinson*: Ceroid accumulation by murine peritoneal macrophages exposed to artificial lipoproteins: ultrastructural observations

57 *E.C.G.M. Hampson and S.M. Pond*: Ultrastructure of canine lung during the proliferative phase of paraquat toxicity

69 *R.K. Kumar, J.Y. Truscott, G.C. Rhodes and A.W.J. Lykke*: Type 2 pneumocyte responses to cyclophosphamide-induced pulmonary injury: functional and morphological correlation

81 *M. Zambetis and H.J. Grossman*: Effect of ischaemia on endothelium-dependent vasodilation in the isolated rat superior mesenteric artery

91 *P.O.G. Wilson, P.C. Barber, Q.A. Hamid, B.F. Power, A.P. Dhillon, J. Rode, I.N.M. Day, R.J. Thompson and J.M. Polak*: The immunolocalization of protein gene product 9.5 using rabbit polyclonal and mouse monoclonal antibodies

105 *R.B. Fitzgeorge, A.S.R. Featherstone and A. Baskerville*: Effects of polymorphonuclear leucocyte depletion on the pathogenesis of experimental Legionnaires' disease

113 *E.R. Pettipher and B. Henderson*: The relationship between cell-mediated immunity and cartilage degradation in antigen-induced arthritis in the rabbit

123 *G.V. Abankwa and Z. Ali-Khan*: Induction of amyloid enhancing factor and its biological properties in murine alveolar hydatidosis

133 *G.V. Abankwa and Z. Ali-Khan*: Alveolar hydatid cyst induced amyloid enhancing factor (AEF): physicochemical properties and abolition of AEF activity by serine protease inhibitors

149 *T. Barton, J.P. Cruse and M.R. Lewin*: The relationship between faecal bile acids and the development of experimental colon cancer

155 Announcement

Vol 69 No 2 April 1988

157 *J. Kocsis, G. Karácsony, S. Karcsú and F.A. László*: Effect of the anti-oestrogen Tamoxifen on the development of renal cortical necrosis induced by oestrone + vasporessin administration in rats

169 *M.A. Myers and A. Fleck*: Observations on the delay in onset of the acute phase protein response
177 *C.I. Levene. C.P. Bartlet and G. Heale*: Identification of the connective tissues synthesized by the venous and arterial endothelia of the human umbilical cord: a comparative study
189 *A. Wood, D. Adu, R.J. Birtwistle, D.B. Brewer and J. Michael*: Cyclosporin A and anti-glomerular basement membrane antibody glomerulonephritis in rats
197 *S. Amor and H.E. Webb*: CNS pathogenesis following a dual viral infection with Semliki Forest (Alphavirus) and Langat (Flavivirus)
209 *D.P. de Bono, M. Pittilo, S. Pringle and C. Green*: Endothelial–smooth muscle interactions *in vitro*: effects of high pH, flowing medium and extracellular matrix
221 *M.A. Russo, S.C. Kapoor and G.D.V. van Rossum*: Localization of lead in the kidney and liver of rats treated *in vivo* with lead acetate: ultrastructural studies on unstained sections
235 *P. Worlock, R. Slack, L. Harvey and R. Mawhinney*: An experimental model of post-traumatic osteomyelitis in rabbits
245 *G. Harrison, J. Cornish, M.A. Vanderwee and T.E. Miller*: Host defence mechanisms in the bladder. I. Role of mechanical factors
255 *K.K. Chan and C.L. Sholtz*: The effect of the gene for microphthalmia (mi) on the dorsal lateral geniculate nucleus of the cinnamon mouse
265 *L. Johnson, E. Wirostko and W. Wirostko*: Mouse lethal cardiovascular disease: induction by human leucocyte intracellular Mollicutes
281 *D.J. Etherington, M.A.J. Taylor and B. Henderson*: Elevation of cathepsin L levels in the synovial lining of rabbits with antigen-induced arthritis
291 *E. Pirotzky, Ph. Colliez, C. Guilmard, J. Schaeverbeke, J.M. Mencia-Huerta and P. Braquet*: Protection of platelet-activating factor-induced acute renal failure by BN 52021
301 *G.O. Evans, D.A. Goodwin, C.E. Parsons and N.G. Read*: The effects of levamisole on urinary enzyme measurements and proximal tubule cell inclusions in male rats
309 *N.A. Athanasou, P.A. Hall, A.J. d'Ardenne, J. Quinn and J.O'D. McGee*: A monoclonal antibody (anti-L-35) which reacts with human osteoclasts and cells of the mononuclear phagocyte system
321 *A.P. Jayaraj*: Alpha-l-antitrypsin hepatic cell globules in autotransplanted liver of rats

Vol 69 No 3 June 1988

327 *K. Donaldson, J. Slight, G.M. Brown and R.E. Bolton*: The ability of inflammatory bronchoalveolar leucocyte populations elicited with microbes or mineral dust to injure alveolar epithelial cells and degrade extracellular matrix *in vivo*
339 *J. Scharf, A. Dovrat and M. Nahir*: Localization of denatured enzyme molecules in rat lenses
345 *R. Fraser, S.A. Clark, W.A. Day and F.E.M. Murray*: Nicotine decreases the porosity of the rat liver sieve: a possible mechanism for hypercholesterolaemia
351 *L. Jørgensen, A.G. Grøthe, H.M. Groves, R.L. Kinlough-Rathbone, M. Richardson and J.F. Mustard*: Distribution of cellular responses in rabbit aortae following one and two injuries with a baloon catheter

367 *A. Akagi and H. Otsuka*: Nonspecific esterase reaction in hyperplastic urinary bladder epithelium induced by administration of *N*-butyl-*N*-(4-hydroxybutyl)nitrosamine, freezing and formalin instillation in rats

379 *A. P. Jayaraj*: An investigation into the mechanism of collagenolytic activity in colonic mucosa by a tissue culture method

387 *S. Eneström, H. Druid and L. Rammer*: Fibrin deposition in the kidney in post-ischaemic renal damage

395 *K. Doi, T. Onodera, T. Tsuda, H. Matsuzaki and T. Mitsuoka*: Histopathology of BALB/c mice infected with the D variant of encephalomyocarditis virus

403 *Y. Fukumoto, R.D. Hughes, C.D. Gove and R. Williams*: Inhibition of bile secretion in the rat by serum ultrafiltrates and fractions from patients with fulminant hepatic failure

413 *H.A. Bull, R.M. Pittilo, N. Woolf and S.J. Machin*: The effect of nicotine on human endothelial cell release of prostaglandins and ultrastructure

423 *A. Mathur, M. Bharadwaj, R. Kulshrestha, S. Rawat, A. Jain and U.C. Chaturvedi*: Immunopathological study of spleen during Japanese encephalitis virus infection in man

433 *H. Turley, K.A.F. Pulford, K.C. Gatter and D.Y. Mason*: Biochemical evidence that cytokeratins are present in smooth muscle

441 *M. Yoshida and A. Koga*: Alterations with time of secretion and ultrastructure of the exocrine pancreas in rats with an obstructed biliary system

Vol 69 No 4 August 1988

449 *M.F. Roberti, J.C. Perazzo and A.J. Monserrat*: Effects of unilateral ureteric occlusion on renal necrosis occurring in rats fed a methyl-deficient diet

457 *J.G.R. Ufkes, M. Ottenhof, H.H. van Rooij and J. van Gool*: Rat α_2 macroglobulin is a selective inhibitor of antigen-induced leucotrienes in rat isolated lungs

465 *R. Kulshreshtha, Asha Mathur and U.C. Chaturvedi*: Immunological memory in latent Japanese encephalitis virus infection

473 *L. Jørgenson, A.G. Grøthe, H.M. Groves, R.L. Kinlough-Rathbone, M. Richardson and J.F. Mustard*: Sequence of cellular responses in rabbit aortas following one and two injuries with a balloon catheter

487 *K. Donaldson, G.M. Brown, R.E. Bolton and J.M.G. Davis*: Fibrinolysis by rat mesothelial cells *in vitro*: the effect of mineral dusts at non-toxic doses

495 *G.R.B. Skinner, M. Cowan, J. Davies, K. Brookes, M. Billstrom and A. Buchan*: Reduced tumorigenicity of rodent tumour cells and tumour explants following infection with wild type and mutant herpes simplex virus, bovine mammillitis virus and encephalomyocarditis virus

505 *K. Kawasaki, E. Yaoita, T. Yamamoto and I. Kihara*: Serial study of phagocytic function in rat bovine serum albumin (BSA) nephritis

515 *Masahiro Sugano, Yasuhide Nakashima, Hiromi Tasaki, Masayuki Takasugi, Akio Kuroiwa and Osamu Koide*: Effects of diltiazem on suppression and regression of experimental atherosclerosis

525 *J. Newman, G.N. Antonakopoulos and R.M. Hicks*: Scanning electron microscopy of the upper urinary tract in transitional cell carcinoma of the renal pelvis

537 *R. Pagani, M.T. Portolés, I. Díaz-Laviada and A.M. Municio*: Morphological damage induced by *Escherichia coli* lipopolysaccharide in cultured hepatocytes: localization and binding properties

551 *D.J.P. Ferguson, A.A. McColm, D.M. Ryan and P. Acred*: A morphological study of the effect of treatment with the antibiotic ceftazidime on experimental staphylococcal endocarditis and aortitis

563 *H.M. Ali, R. Scott and G.L. Toms*: The susceptibility of breast-fed and cow's milk formula-fed infant guinea pigs to upper respiratory tract infection with influenza virus

577 *H. van Vúgt, J. van Gool and N.E.P. Deutz*: Fever and acute phase reactants in the rat

589 *Tsuneo Ozeki, Kenichi Imanishi, Takehiko Uchiyama, Hayato Sanefuji Hitoshi Fujiwara, Shuichi Mizuno, Norihide Tanaka and Ikuo Suzuki*: α_1-Acid glycoprotein and hepatic fibrosis

597 *S. Kirkeby and H. Mikkelsen*: Macrophages and mast cells in dystrophic masseter muscle: a light and electron microscopic study

Vol 69 No 5 October 1988

605 *K. Alizadeh-Khiavi and Z. Ali-Khan*: Biochemical nature and cellular origin of amyloid enhancing factor (AEF) as determined by anti-AEF antibody

621 *A. Kolin, A. Brezina, J.A. Kellen, A.J. Lewis and J.W. Norris*: Reversible myocardial damage in gerb 1 brain ischaemia and its prevention by beta-adrenergic blockade

631 *E.A. Fontaine, J.B. Clark, D. Abeck and D. Taylor-Robinson*: The effect of a toxin from *Bacteroides ureolyticus* on the mucosal epithelium of human and bovine oviducts

639 *Z. Gori, V. De Tata, M. Pollera and E. Bergamini*: Mitochondrial myopathy in rats fed with a diet containing beta-guanidine propionic acid, an inhibitor of creatine entry in muscle cells

651 *G. Marquis, S. Montplaisir, M. Pelletier, P. Auger and W.S. Lapp*: Genetics of resistance to infection with *Candida albicans* in mice

661 *G. Bou-Gharios, J. Moss, D. Abraham, T. Partridge and I. Olsen*: Ultrastructural studies of a lysosomal enzyme during lymphocyte activation

671 *I. Eggens, L. Bäckman, Å. Jakobsson and C. Valtersson*: The lipid composition of highly differentiated human hepatomas, with special reference to fatty acids

685 *Q. Dong, M. Zhou, V. Subbarao and C. Ts'ao*: Cellular and extracellular plasminogen activator and inhibitor in an experimental tumour

697 *P.H. Whiting and I.S. Ross*: Increased nerve polyol levels in experimental diabetes and their reversal by Sorbinil

703 *R.J. Hay, R.A. Calderon and C.D. Mackenzie*: Experimental dermatophytosis in mice: correlation between light and electron microscopic changes in primary, secondary and chronic infections

717 *J.M.G. Davis and A.D. Jones*: Comparisons of the pathogenicity of long and short fibres of chrysotile asbestos in rats

739 *J.C.W. Edwards, N. Read, B. Trefty, J. Coulstock and B. Henderson*: Quantitative histological analysis of antigen-induced arthritis in the rabbit

749 *I.J. Crane, S.Q.J. Rice, J. Luker, L. de Gay, C. Scully and S.S. Prime*: The expression of MHC antigens on cultured oral keratinocytes and relationship to malignancy

Vol 69 No 6 December 1988

759 *J. Cornish, J.P. Lecamwasam, G. Harrison, M.A. Vanderwee and T.E. Miller*: Host defence mechanisms in the bladder II. Disruption of the layer of mucus

771 *J.S. Beck, S.M. Morley, J.G. Lowe, R.A. Brown, J.M. Grange, J.H. Gibbs, R.C. Potts and T. Kardjito*: Diversity in migration of CD4 and CD8 lymphocytes in different microanatomical compartments of the skin in the tuberculin reaction in man

781 *A. Baskerville, R.B. Fitzgeorge, M.I. Gilmour, A.B. Dowsett, A. Williams and A.S.R. Featherstone*: Effects of inhaled titanium dioxide on the course of experimental Legionnaires' disease

793 *D.J. Pritchard and W.H. Butler*: The ultrastructural features of aflatoxin B_1-induced lesions in the rat liver

805 *M.A. Bosch, R. García, R. Pagani, M.T. Portolés, I. Díaz-Laviada, S. Abarca, M.J. Ainaga, C. Risco and A.M. Municio*: Induction of reversible shock by *Escherichia coli* lipopolysaccharide in rats. Changes in serum and cell membrane parameters

813 *D.V. Seal and D. Kingston*: Streptococcal necrotizing fasciitis: development of an animal model to study its pathogenesis

833 *S. Pugh, S.E. Williams, T. Barton, C.G. Clark and M.R. Lewin*: Endogenous prostaglandin E2 synthesis preserved following cytoprotection by Roter (bismuth subnitrate) in the rat alcohol model of gastric ulceration

839 *J. Cornish, M. Vanderwee, G. Findon and T. Miller*: Significance of cyclosporin-A-associated renal surface irregularities

845 *J. Dunham, M.G. Chambers, M.K. Jasani, L. Bitensky and J. Chayen*: Changes in oxidative activities of chondrocytes during the early development of natural murine osteoarthritis

855 *W.M. Bagchus, Ph.J. Hoedemaeker, J.F.G. Slegers and W.W. Bakker*: The specificity of nephritogenic antibodies V. Glomerular localization of anti-GP 330 and anti-GP 90 antibodies present in passive Heymann serum

865 *E. Claassen, Y. Westerhof, B. Versluis, N. Kors, M. Schellekens and N. van Rooijen*: Effects of chronic injection of sphingomyelin-containing liposomes on lymphoid and non-lymphoid cells in the spleen. Transient suppression of marginal zone macrophages

877 *D.J. Winton and B. Flaks*: Effect of fasting on aggregation of hepatocyte rough endoplasmic reticulum in adrenalectomized and 3′MeDAB-treated rats: quantitative electron microscope study

891 *E. Wirostko, L.A. Johnson and W.J. Wirostko*: Mouse interstitial lung disease and pleuritis induction by human Mollicutes-like organisms
